It's a Medical Cost Sharing Community made up of Members who help share the cost of one another's large medical expenses through a secure platform. In doing so, we support one another's physical and financial health.

Medical Cost Sharing is a peer-to-peer sharing of large, unexpected medical costs through a membership-based Community.

Pre-existing conditions will become eligible for sharing based on the Member's tenure with the Sedera Medical Cost Sharing Community, as indicated by the following graduated sharing schedule.

Time constraints for pre- existing conditions after membership effective date	Sharing eligibility
First 12 months	Not shareable
Months 13-24	Shareable up to \$15,000
Months 25-36	Shareable up to \$30,000
Months 37 and after	Shareable

# Sedera cares

Medical Cost Sharing is a proven alternative for managing healthcare costs. Enjoy a few Sedera in action stories here.

"Some of the aspects that sold us on medical cost sharing is the ability to choose your provider, to go where you want. The additional confidence that I gained was learning that a lot of other physicians themselves have Sedera. By switching to Sedera, my family and I are saving over \$1000 a month from traditional health insurance cost. Not only do you have peace of mind, but it's more affordable."

Chris, Sedera Member

"Many people feel trapped by insurance. But there are other options. You can join a Cost–Sharing community, have Telemedicine, have Direct Primary Care."

Alex, Sedera Member

"Sedera's different. It introduces an alternative option to Team Members that's more affordable—and more supportive. Sedera also frees up HR and CFOs so they don't have to deal with a health insurance plan, and they can focus on the things they really need to be focused on instead."
